The Fund Manager is responsible for the preparation and presentation of these condensed interim financial statements in accordance with the International Accounting Standards 34: *Interim Financial Reporting* ("IAS 34") that is endorsed in the Kingdom of Saudi Arabia and to comply with the applicable provisions of the Investment Funds Regulations issued by the Capital Market Authority and the Fund's Terms and Conditions. Our responsibility is to express a conclusion on these condensed interim financial statements based on our review.

Scope of review

We conducted our review in accordance with the International Standard on Review Engagements 2410: Review of Interim Financial Information Performed by the Independent Auditor of the Entity that is endorsed in the Kingdom of Saudi Arabia. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with the International Standards on Auditing that are endorsed in the Kingdom of Saudi Arabia, and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying 30 June 2023 condensed interim financial statements of **Yaqeen Saudi Equity Fund** are not prepared, in all material respects, in accordance with IAS 34 that is endorsed in the Kingdom of Saudi Arabia.

8. FAIR VALUE ESTIMATION

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

When available, the Fund measures the fair value of an instrument using the quoted price in an active market for that instrument. A market is regarded as active if transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis. The Fund measures instruments quoted in an active market at a market price, because this price is assessed to be a reasonable approximation of the exit price.

The fair value hierarchy consists of the following levels:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date
- Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly
- Level 3: unobservable inputs for assets and liabilities.

The fund has classified investments measured at fair value through profit or loss (FVTPL) as level 1 as per the fair value hierarchy. During the period, there has been no transfer in fair value hierarchy. For other financial assets and liabilities, such as cash and cash equivalent, dividend receivable, accrued management fees and other liabilities, the carrying values were determined to be a reasonable

approximation of fair value due to their nature.

9. RELATED PARTY TRANSACTIONS AND BALANCES

Parties are considered to be related if one party has the ability to control the other party or exercise significant influence over the other party in making financial or operational decisions.

Within the normal course of business, the Fund deals with related parties that are in turn subject to the Fund's terms and conditions issued by the CMA. All transactions with related parties are approved by the Fund's Board.

The Yaqeen Capital (Fund Manager) and companies related to the Fund Manager are considered as related parties to the Fund.

	<u>Percentage</u>
Management fees	1.75%

10. CONTINGENCIES AND COMMITMENTS

There are no commitments and contingencies as of 30 June 2023.

11. UNIT VALUE RECONCILIATION

In accordance with CMA circular no. 1/6/7218/17 dated 13 Rabi al-Thani 1439H (corresponding to 31 December 2017), the CMA Board decided on 10 Rabi al-Thani 1439H (corresponding to 28 December 2017) to restrict the recording of expected credit losses (ECL) calculated in accordance with IFRS 9 only for the purpose of financial reporting.

All financial assets held at amortized cost were considered for ECL as on 30 June 2023. However, the impact of ECL on these assets was immaterial as cash and cash equivalent held with bank and dividend receivable recoverable from a company having sound credit rating and there is no history of default or recovery of these balances. Accordingly, this condensed interim financial statements do not contain any significant ECL adjustments and therefore reconciliation of the unit price calculated according to the applicable financial reporting framework to the unit price calculated for the purpose of unit transactions is not required.

12. LAST VALUATION DAY

The Fund units are valued, and the net assets value is calculated at the end of each working day (valuation day). The last day of valuation was 30 June 2023.

13. APPROVAL OF THE CONDENSED INTERIM FINANCIAL STATEMENTS

The condensed interim financial statements were approved by the Fund's Board on 10 August 2023.
